Sappho's Tacos

Background

A small taco shop located in the heart of the city, Sappho's Tacos is well-known for it's wide and unique variety of tacos as well as it's LGBTQ+ friendly environment. As a result, the place has become a very popular hangout for LGBTQ+ teenagers.

However, the place is not without its controversy, from both within the LGBTQ+ community and out. The restaurant was in the centre of a massive controversy during the Tumblr Asexual Discourse of 2016, with people debating whether the restaurant should market itself as a LGBTQ+ restaurant when the owner is 'only' asexual. Not to mention the inherent dangers of running an explicitly LGBTQ+ business in a location where people from all walks of life, some of whom are not particularly LGBTQ+ friendly. However, despite these issues, the taco shop is still going strong, and beloved by many members of the LGBTQ+ community.

The Manager

The restaurant is run by a Mexican-American woman by the name of Veronica Ramirez. Veronica is biromantic and asexual, with her opening the taco shop in order to create a non-sexual environment for LGBTQ+ people to meet and interact in. Veronica is welcoming to almost all of her customers, but will not take any sort of discrimination lightly. She is very protective of, and frequently a mentor to, some of her younger LGBTQ+ customers.

For her look, choose one: Conservative, welcoming, too much plaid, butch, femme.

For her secret, choose one or more: Immortal, ghost, part-time monster hunter, recovering addict, not over her ex.

The Others

- Who had made the taco shop their regular date spot? How do the staff feel about that?
- Who introduced the player characters to the taco shop? How did they find out about the place?
- Who has a taco named after them? Why?
- Who fails to realise the restaurant is a LGBTQ+ hangout? How does that affect their behaviour?
- Who used to date one of the waitstaff? Do they still go there? How do they react to seeing each other?
